

Dear Business Partner,

We celebrated our 45th anniversary on 13th January 2013!

This was the day when ball bearing production was launched in ZVL Žilina – Bytčica factory. Based on the ČSSR government resolution the very first bearing ring of type 6205/2 was manufactured in Žilina – Bytčica on the last day of year 1967. The production was launched celebratory on 13th January 1968 and the cornerstone of an automatic production line was laid.

The 45th anniversary is a good opportunity to remember and recap more than 4 decades of building of the Slovak company, which has always played a significant role in domestic and world market. Since its foundation the company has seen couple of dynamic changes of production processes as well as changes in ownership. At present ZVL SLOVAKIA, a. s. is a reliable partner to its customers in various industries worldwide. We have put many resources and effort into product development, improving services, creating competitive price and business policy. The generations of employees have been creating and keeping values throughout the years in the business. We are looking into the future of our company with great enthusiasm. The milestone of 45 years brings new challenges for the years to come. It means our obligation to continue offering reliable and effective solutions together with good quality products.

This anniversary is an opportunity to thank you – all the customers and business partners who paved the way to successful history of our company. Your trust in our capabilities, production quality and professionalism is the cornerstone of our 45-year existence. That is why we express our gratitude to you. We highly appreciate your trust, support and cooperation. Thank you!
